

Spokane Bar Sapphire Mine & Gold Fever Rock Shop

February 2004 Newsletter

Dear Friends,

Unyielding ice covers the ground in a tempered sheath. Glazed by frost, ice crunches underfoot and reverberates in the still air. Wisps of fog churn jumbled ice flows near the river channel signaling a temperature change. Sunrise creeps between darkened clouds. Soft pinks turned gold and dash blue edged mountains into gleaming daylight. Our renewed enthusiasm sparks creative efforts at shipping sapphire gravel here at the Spokane Bar Sapphire Mine near Helena, Montana.

[Click Here To Order](#)

Valentine Hobby Boxes of sapphire gravel and the Winter Garnet Gravel with your choice of the heart or round cut garnets go out for our special of the month. You can place your order from our website at www.sapphiremine.com or call us here at the sapphire mine at 1-877-Dig Gems and we will ship you this unusual gem gravel gift to spark up your life. Gem Kits or Premium Gem Kits can also be included with your order for a starter pack. Everything you need to mine at home is included in the kits. Sample sapphires and sample garnets can also be ordered to help identify these valuable minerals as you sort your gravel at home.

These can be very helpful for those who get their box of rocks and do not know what to look for.

More excitement awaits you with our Spokane Bar Monster Mine. Thousands of dollars worth of sapphires have been found in this material. It is truly a treasure hunt. For those of you that missed The Learning Channel, *Hunt for Amazing Treasures*, episode "Fortunes Abound" aired May 1, 2003 – we may have this video available for sale soon on our website. Let me know if you have an interest in this and I will keep you on our video list. We are also considering filming a "How To" instructional video on sapphire mining available this summer.

Russ returned from Laughlin, Nevada – glad to be back home. He brought a stunning array of amethyst crystals. Cass will be photographing these individually for our website for you to purchase. Also available are pink and blue colored crystal rock bookends.

Now the gleaming daylight that I was telling you about – it quit gleaming – it's snowing again. Keep calling me from Florida with your weather reports.

Sincerely,

Deb and Russ Thompson
