December 2006 Newsletter

Dear Friends!

Wind gusts of 50 mph, (between snow storms) Cass put the plow on the dump truck! Snowdrifts pile up blocking the road to the mine. We are huddling next to any available heat source as we experience variable temperatures of 1 to a negative 17 degrees!

Cactus Hill gravel is sold out. As soon as we have a long enough break in the weather, we can process more material from that pit. In the meantime, the Spokane Bar Monster Mine bags are from the Independence Pit. Note last newsletter, the large 3.58 carat blue sapphire that was mined from the Independence Pit in September! Recent customer comments: Jason from New Hampshire emailed: *"I was thrilled to find the best sapphires in my last batch of Spokane Bar gravel. I found one that finished 2.58 carat. Elliott Sher cut them and he did a great job! Can't wait for my next shipment!"* or John from Oklahoma –*"You didn't tell me it was addictive!"*
