SAPPHIRE

The sounds that hail from the great outdoors sound both morning and lonely here in Montana, but that does not stop us from our relentless pursuit of mining precious gemstones for our awaiting customers. If the weather breaks and we get decent temperatures, the guys will be ready to take full advantage of it with our equipment ready to start mining! We received our first opportunity on the 17th of Jan 2011 when we got a preview of springtime weather to come. The lovely 60° temperature was like a shot of adrenaline. We were able to produce some fantastic material for our sapphire concentrates, which are available at www.sapphiremine.com, or call one of our great sapphire recovery experts to help guide you through

the process on turning your “Rocks into Riches,” at 1-877-DIGGEMS.

We have had fantastic reports on all of our sapphire gravel, especially our Mother Lode Concentrates. Tim from Maine has said his Mother Lode bag was full of great stones, some as big as 11 carets and one 6.1 caret FACET GRADE! Mother Lode concentrate is not for sale on our website, and is only available by phone (1-877-DIGGEMS), or by stopping by in person at 5360 Castles Rd, Helena, MT 59602. We have been able to replenish our complete line of sapphire gravel because of our great break in the weather, and every type of concentrate is available for purchase at this time.

Valentines Day is on its way and we will have a drawing for a \$1,000.00+ Missouri River Sapphire Pendant to mark the occasion. Every Large Sapphire Concentrate sold by phone, eBay, website or here at our office will receive one entry into the drawing which will be held on the week before Valentines Day, so the winner will be able to receive the prize just in time for that special someone.

New tables and screens have been built by hand by Mike, Pat, and Mike’s son Tye, for the use of all fortune seekers who come out to the mine for sapphires.

The boys have been keeping busy during the cold days with the thought of well-supplied miners warming their hearts and keeping them busy. They have also made lots of our Gemkits, Hobby Boxes and various other hand made items available here at the sapphire mine.

Remember to visit our eBay page at

<http://stores.ebay.com/Gold-Fever-Rock-Shop> for great deals and also friend us on Facebook at

<http://www.facebook.com/SapphireMine> for the Latest news,

specials, help, advice from us and other customers/fans of the Spokane Bar Sapphire Mine!

Sincerely,
Cass Thompson and Staff at Spokane Bar Sapphire Mine
