SAPPHIRE

Montana's winter refuses to give up its frigid grasp on the land, or the people who make a living from it. With near record low temperatures and blistering wind chills the -40 degrees have kept most people huddled up inside near any warmth they can find. We're no different, keeping very close to our fireplace and creatively coming up with projects to keep busy. Such as remodeling parts of our office, updating our customer use mining equipment, and manufacturing new products for sale.

February's Valentines special was a huge hit, with many great finds unearthed. The most popular concentrate is still the Mother Lode which has the biggest stones reported. One lucky lady from Sandpoint, Idaho won the very nice three stone Montana Sapphire pendant that we gave away last month with a chance to win when any large concentrate was purchased. Congratulations from all of us go out to her.

The overwhelming positive response from our last give away has prompted us to do it again! From now through Mothers day, May 8th, when you call 1-877-dig-gems or stop in to see us, you will be entered into a drawing to win a pair of beautiful Missouri river Garnet earrings from here at the Spokane Bar Sapphire Mine! (No Purchase Necessary)

The old saying states that March is "In like a lion and out like a lamb" So far this year it has proven true and we hope it will end true as well, while we wait for spring to turn the white bleak landscape into a kaleidoscope of green grass and blooming flowers. We are finishing all of our equipment repairs and are gearing up for the floods of Adventure seekers and rock hounds looking to find their fortune.

Remember to visit our eBay page at <http://stores.ebay.com/Gold-Fever-Rock-Shop> for great deals and also friend us on Facebook at <http://www.facebook.com/SapphireMine> for the Latest news, specials, help, advice from us and other customers/fans of the Spokane Bar Sapphire Mine!
